♥ Tartu

Web Developer

#### **OBJECTIVE**

In my career, I have been involved in many different sectors ranging from textiles to housing to printing. Regardless of the industry, there has always been consistent motivation to evolve, grow and push the boundaries. This is best reflected in me participating in projects to improve process workflows and coming up with innovative solutions on top of handling my day-to-day tasks. Among other exciting involvements starting school has been the most interesting. I have learned so much in a short period of time and have found myself being more motivated to master coding every day.

#### **EDUCATION**
